

REGIONAL FORUM

People Water and Land – *Te Mana o te Tangata, te Wai, te Whenua*

Project Update

Rhiannon Suter
19 November 2019

Phase Two Update

>> Report from Regional Forum to Council in March/ April 2020

September workshop

You'll receive:

Community Values and Objectives

Workshop Focus:

Identifying Barriers and Drivers for Change
Tools for Change – Practical Action

November workshop

You'll receive:

**Iwi Values
The Gap Analysis – Current State and Future State**

Workshop Focus:

Vision for freshwater (TBC)
Identifying the core challenges
Tools for Change – Practical Action

February workshop

You'll receive:

**Iwi Draft Freshwater Objectives
Gap Analysis reflecting Iwi Draft Freshwater Objectives (TBC)**

Workshop Focus:

Identifying areas of focus for Phase Three
Tools for change – Practical Action

Report to Council:

Reflection on

- What the community wants to achieve
- The challenge
- Areas of focus for Phase Three
- Immediate recommendations for practical action

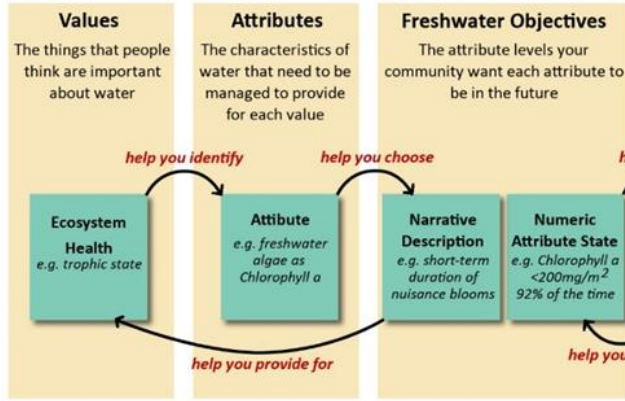

Phase Two Report

Report component	Inputs required	Progress
Background	PWL vision statement, Regional Forum terms of reference, Feedback from the Forum members Phase Two Values and Objectives overview	Commenced
The community's vision for freshwater	V&O package (Community element complete) Workshopping at November and February workshop	To be drafted post February workshop
The challenge – Improving Southland's Freshwater	V&O Gap analysis (Partially complete) Workshopping at November workshop	To be drafted post November workshop
Inspiring Change	Recognition of impact of existing action Barriers and Drivers workshopping (complete)	Recognition elements to be drafted post November workshop Draft Inspiring Change text for Forum review
Approach to Phase Three	Kaititui Team Approach to Phase Three Feedback from Forum members at November and February workshops	To be completed post February workshop
Recommendations for practical action to inspire change	Input from the Practical Actions workstream	To be completed post February workshop

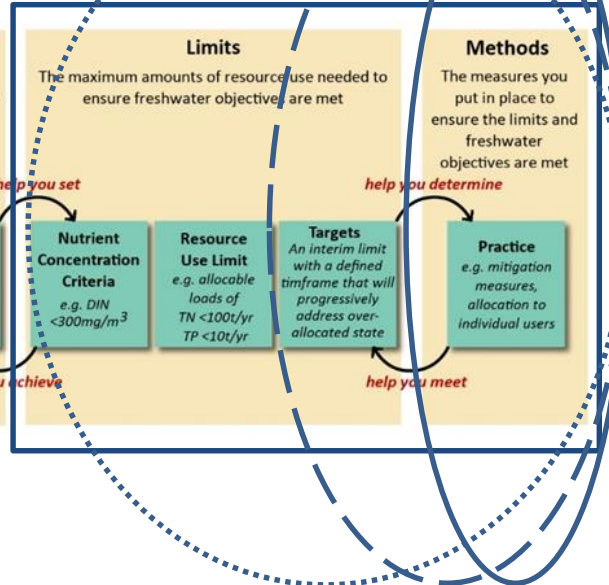

Phase Two Report

- Discussion: Proposed structure of report
- Inspiring Change Draft Text - Feedback

Phase Two

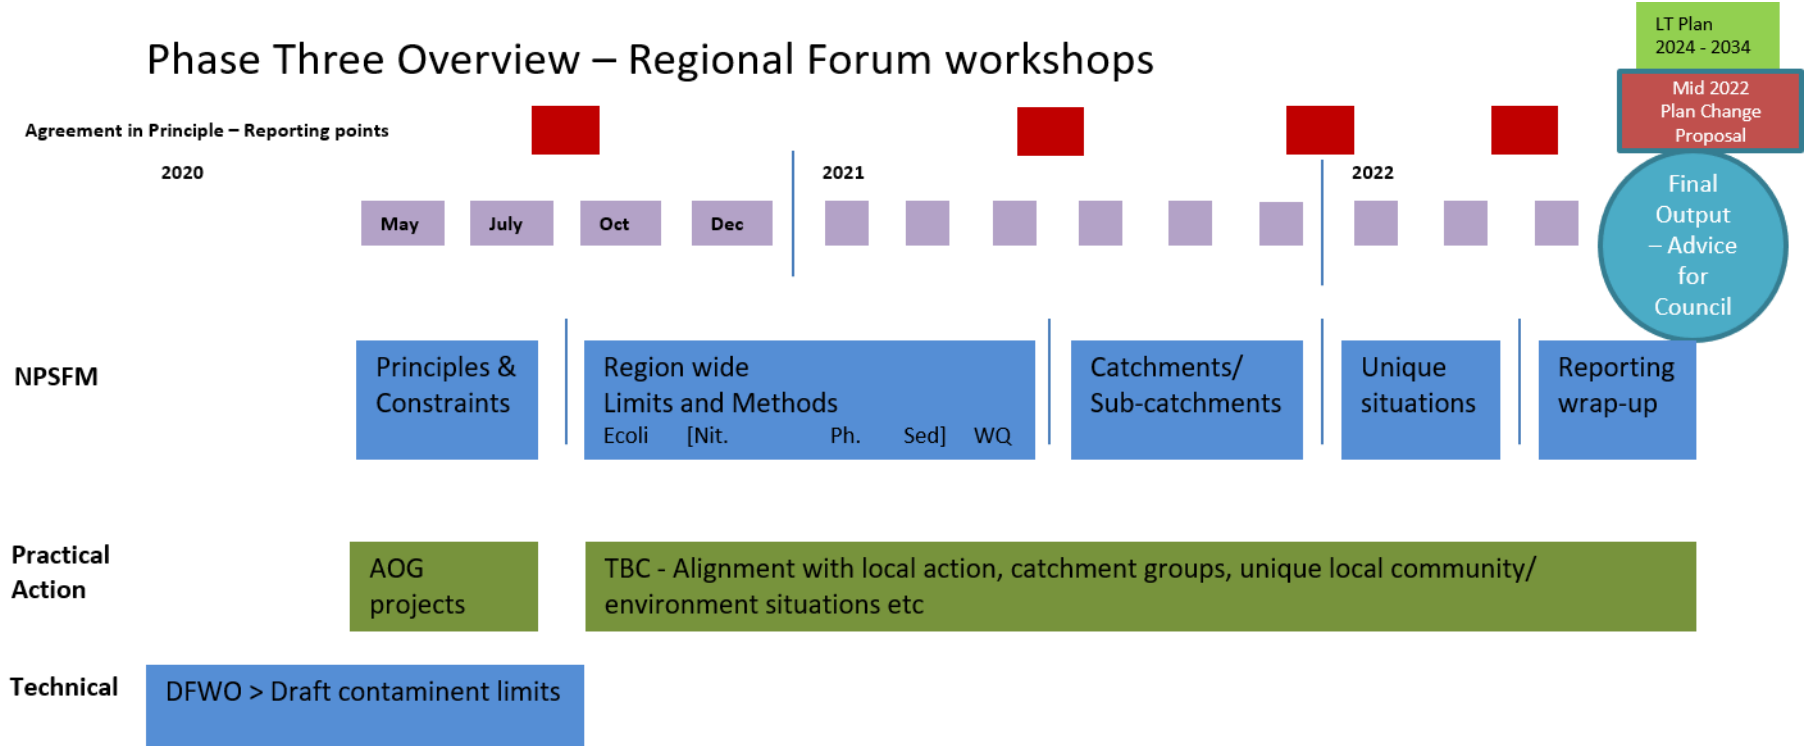

Phase Three

REGIONAL FORUM

Phase Three

Phase Three Overview – Regional Forum workshops

Next step is to complete the dependency flows and resource estimates which are likely to require some adjustment to timetable above.

REGIONAL FORUM

People Water and Land – Te Mana o te Tangata, te Wai, te Whenua

Phase Three

- Feedback on Phase Three structure
- Proposed dates for Phase Three:
 1. **May:** Wednesday 13 and Thursday 14 May
 2. **July:** Wednesday 28 and Thursday 29 July
 3. **October:** Tuesday 20 and Wednesday 21 October
 4. **December:** Tuesday 8 and Wednesday 9 December

Inspiring Change – Practical Action

Rhiannon Suter
20 November 2019

Inspiring Change

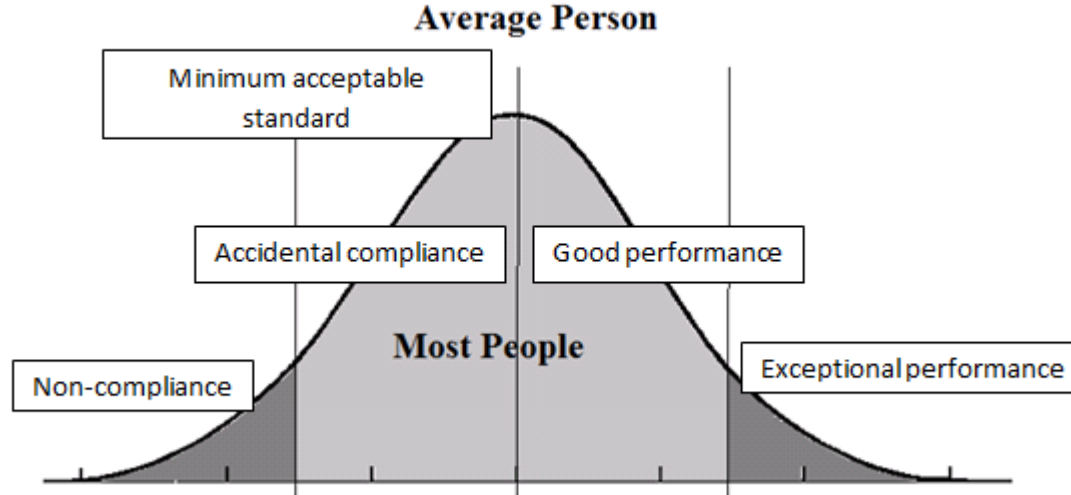

- Phase One discussions
- Voluntary methods paper
- “Ideas” parking lot
- ES staff “think tank”
- Operational/ regulatory practical actions working group

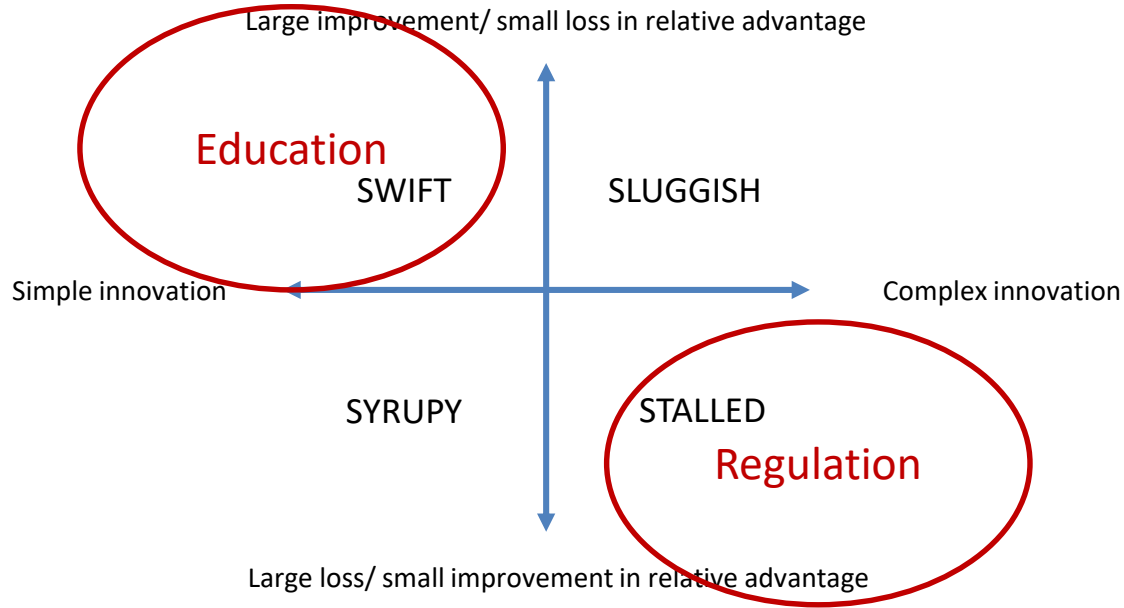

Proposed selection criteria for discussion

- Potential to inspire change in Southland's freshwater – focused on major barriers/ drivers for change; focused on areas of core challenge; influences actors with potential to make change
- Falls within Council remit (as opposed to Central Government or area of private sector responsibility)
- Alignment with existing Council strategy/ work programme
- Provides a foundation for long term action, including through clustering with existing programmes to leverage greater impact
- Existing research/ guidance on need/ effectiveness to draw on (with the exception of scoping studies to develop this information where it does not exist)
- Feasibility – Ability to deliver within/ alongside the existing work programme
- For delivery in the immediate time period (pre-2025)

Some ideas about change

Some ideas about change

Some ideas about change

- Within complex systems actions often have diffuse impacts
- Overlapping/ gaps in areas of responsibility
- Liminal spaces –bring challenges...and opportunities
- Coordinated/ partnership responses often required

Proposed scale of action

- **Where** is change needed?
- **Who** needs to make change happen?

Proposed scale of action

	Scale of action: Business/ farm/ individual actor scale	Scale: Catchment/ Subcatchment
To influence: individual decision making	Innovation in education channels (e.g. utilising network nodes – rural contractors, rural professionals etc)	Catchment experience events – e.g. Partnering with catchment groups to deliver fieldtrips to connect people throughout the catchment to the receiving environment they influence
To influence: system level change	Consenting/ compliance process design to make positive change as easy as possible Rewarding voluntary action	Scoping for Integrated catchment management – e.g design thinking workshops with catchment groups to identify what tools they need to change at catchment level, benchmarking tools, pilot practical initiatives like coordinated riparian planting
